*What are users & reviewers saying?*

"Lexbe is awesome! Easy to use and I really like it."  
Melissa Thompson  
Lumin Expert Group

"An essential tool for litigation matters."  
Brett Burney  
Law.com

**Manage Your Cases from any Web-Based Computer**

Have you ever searched on Google™ and wondered when the day would come when you could access your cases in the same way? Well, that day is here. Lexbe enables you to easily search, organize and share your cases from anywhere.

Lexbe is an advanced web-based case analysis and litigation document management application. Lexbe is **SaaS** (software as a service) based, so you don't have to worry about purchasing or maintaining hardware or software. Lexbe uniquely marries robust case analysis tools with a powerful litigation document repository.

**Comprehensive search** is critical in modern litigation and Lexbe is easy to use but includes advanced features. Plus, Lexbe works with PDF, office documents and hundreds of other files types. We handle required **backups, security, training and support**. Most importantly, Lexbe is **easy to use**, enabling users to be highly productive from the office, from home, or while travelling on the road.

**What Can Lexbe Do for You?**

**Find & Analyze Key Case Facts**

Extract and organize key case facts and issues and understand your case from the beginning. Be ready for depositions and motion practice.

**PDF, Native Review and More**

Lexbe allows review with most file types, including PDF, Word, Excel, etc.

**Dynamic Chronologies**

Lexbe's dynamic timelines enables you to see what really happened, when, in your case. Documents are only a click away.

**Deposition Analysis**

Stop summarizing depositions! Instead, extract and analyze key facts to prepare better for depositions, summary judgment motions and trial.

**Complete Productions Quickly**

Lexbe applies Bates numbers both at the file level (native) and at the page level (PDFs), and downloads sets.

**Collaboration Made Easy**

Shared calendar, notes, contacts, and more. Get everyone on the same page.

**Anywhere Anytime Access**

Get your litigation documents and data from any web-enabled computer or laptop. Work from the office, home or anywhere.

**Powerful Search Technology**

Find the 'smoking guns' with our Google™-like search. Easy to use, but includes advanced features like concept and boolean search.

**No Upfront Cost; Easy IT**

You don't need to worry about installing and maintaining hardware or software.

**Maintain Your Files Securely**

Files are protected by 128-bit SSL security, the same encryption used by many banks. Lexbe backs-up your files daily to an offsite location.

**Amazingly Affordable**

- Starts at \$99/m for 2 users/1GB
- Law Firm Plan: \$249/m 10 users/10GB
- Additional users: \$15/m
- Additional GBs: \$15/m
- No set-up or hidden fees or costs

The screenshot shows the Lexbe web interface. At the top, there are navigation tabs: Home, Case, Analytics, Search, Browse, and Discovery. Below this is a search bar with the word 'invoice' entered. To the right, there's a 'Browse' section showing a folder structure for 'Demo Case 1' with sub-folders like 'Accounting (4)', 'Agreements (1)', 'Electronic Discovery (1)', and 'Emails (0)'. On the far right, a 'Total Documents: 22' table lists documents with columns for Title, Ext, Size, and Type. Below the search bar, there's a 'Timeline' view showing a horizontal bar chart with dates 12/1/2004 and 1/13/2005. The timeline entries include: 'Cook was earning \$41,000/yr before the accident.', 'Cook did not appear injured to Green immediately following the accident.', and 'Absolute Dewatering paid for 1/2 of the block repair after the accident.'
