

## Lexbe eDiscovery Services Overview

*Race through your review and power past productions with Lexbe's eDiscovery Services. Quickly narrow the bulk of potentially relevant electronic stored information (ESI), get ready for data load and review, and complete productions, all using industry best practices.*

Quickly reduce your ESI and slash the cost of eDiscovery and document review. Meet production deadlines with time and budget to spare.

**Speed Document Review & Productions** – ESI collections are increasing rapidly, but the time allotted for you for review and production unfortunately has not. We quickly get your documents processed and ready for review or production, whether it's measured in MBs, GBs or TBs (PBs coming soon!). Our proprietary scalable eDiscovery back-end processing architecture allows us to handle large jobs quickly and cost-effectively – even large Culling and TIFFing jobs others avoid. This gives you maximum time to work with your documents.

*Meet Tight eDiscovery Deadlines*

**High Security** – We transmit and store your ESI using strong 256-bit (AES-256) encryption, the same technology used by Banks. Our U.S.-based data centers have successfully completed SAS70 Type II audits, and provide Service Organization Controls 1 & 2 reports published under SSAE 16 and ISAE 3402 professional standards.

*Maintain Confidentiality with Confidence*

**Comprehensive Services** – We support a broad array of options for file inputs and delivery to get ready for review & production: ESI Culling+, Native TIFF+, Native PDF+, Native Extraction+, eDiscovery OCR+, Bates Stamping+, Predictive Coding+

*Get Everything You Need for Discovery Management*

**Extras Included** – What others don't offer or charge extra for, we provide standard.

- **Multiple Load Files** – We include loadfiles in Excel XLSX (Lexbe) DAT/OPT (Concordance, iPro, Relativity, Ringtail) and DII (Summation) standard on all productions.
- **Fast Loading and Delivery** – We can load and output up to a TB a day.
- **Advanced Culling** – We offer full keyword culling, including OCR'd text. This picks up ESI others miss. Of course we also offer custodian, date, filetype and metadata filtering.
- **Text & OCR** – We offer extracted text of natives and image optical character recognition on all jobs, to improve search results.
- **Blended Productions** – We include Natives and PDFs on all productions (including TIFF).
- **Fast Delivery** – Most jobs completed in three business days, regardless of size.

*Expect and Receive More*

**Hosting Available Too** – Need hosting and review? Our Lexbe eDiscovery Suite offers lightning fast search and every review option you can imagine.

*Access Fast & Feature Rich Hosting*

**Get a Free Consultation & Quote** – Contact us to get a free consultation for your particular ESI needs from one of our experienced and knowledgeable professionals. Ask for a quote to know how quickly you can get your processed ESI done and see how little it will cost.
