

Lexbe eDiscovery Suite Overview

The need for a good, fast, and cost-effective eDiscovery tool has never been greater. The size of electronic stored information collections (ESI) continues to soar, while budgets and timelines unfortunately do not. The Lexbe eDiscovery Platform provides you with the tools you need load, process, analyze, review, produce, prepare for depositions and conduct trial.

Process, search, review, code, and produce native, PDF or TIFFs in our secure, shared, & easy-to-use cloud-based document management and eDiscovery platform

High Security & Availability – We transmit and store your ESI using strong 256-bit (AES-256) encryption, the same technology used by Banks. Our U.S.-based data centers have successfully completed SAS70 Type II audits, and provide Service Organization Controls 1 & 2 reports published under SSAE 16 and ISAE 3402 professional standards. Our uptime over the last 5 years exceeds 99.999% and we provide a 99.99% uptime guarantee.

Maintain Case Data with Confidence

A Fully Featured eDiscovery Solution – Whatever your case stage or need, you'll find Lexbe has a solution to offer.

- **Early Case Analysis** – Analyze data and custodians, summary reports of ESI.
- **Dynamic Culling** – Reduce ESI with dynamic culling by Custodian, date, file type or keyword.
- **Processing & Loading** – Load native files (Outlook, Word, etc.), PDFs or TIFF/load files. We support it all. All files are converted to PDF for integrated viewing, search & download.
- **Doc Review** – Search results in seconds, unlimited coding fields, integrated native files, more.
- **Productions** – Our Blended Productions meet any need: natives, PDFs, TIFFs and loadfiles.
- **Depos, Motions & Trial** – Transcript analysis, dynamic timelines, document repository, more.
- **Full Control** – You run Lexbe yourself, and can set up users, cases, load cases, productions, etc., without the time or money needed to call outside service vendors.
- **Cross Platform** – Lexbe is completely web-based, and supports PC & MAC users.
- **Responsive Support** – Multiple support options based on your needs, including ticket and phone. Custom training and Lexbe Professional Services are available as well.

Access Comprehensive and Sophisticated Tools

Easy to Use – We designed the Lexbe eDiscovery Platform to be intuitive—easy to learn and use. Set up cases, and transfer files yourself—without a dedicated IT expert on-hand.

Be Productive Quickly; Minimize Training Needs

Lightning Fast – We support 10 GBs/day (~500,000 pages) per account of native processing, OCR or productions. Search results & batch tagging returns in seconds, even for very large cases.

Make Deadlines with Time to Spare

Surprisingly Affordable – No set-up charges and no minimum contract term. No user fees. Hosting or Processing-specific accounts available. Scale up/scale down with your cases and needs. You save by not having expensive and unnecessary servers, software licenses or staff.

eDiscovery On or Under Budget

Get a Free Consultation & Risk-Free Account – Contact us to get a free consultation for your particular ESI needs from one of our experienced and knowledgeable professionals. We also offer 15-day risk accounts for testing.
